

ELAC

The life of sound.

Debut 2.0™ Series

Everything we do is different.

Few speakers have garnered such critical acclaim as the original Debut Series by ELAC. They established a new value proposition, with build quality and performance never before attainable at such an affordable price. Debut “changed the game,” and has now changed it again with the Debut 2.0 Series—proof that ELAC can’t leave well enough alone. Redesigned from the ground up, these speakers sound even more remarkable than the ones that sparked the revolution in affordable high-end sound.

Debut A4.2 Dolby Atmos® Add-On Speakers

Adds a whole new dimension in entertainment.

Dolby Atmos technology expands the sonic landscape, creating a true 3-D space that you’ve got to hear to believe. With Dolby Atmos-enabled AV receivers and processors, simply add the Debut A4.2 to the top of your bookshelf or floorstanding speakers to achieve dimensionality that puts you in the middle of the music and the action.

DEBUT 2.0 SERIES FEATURES

Woven Aramid-Fiber Woofer

Woven aramid fiber offers a superior stiffness-to-weight ratio and damping over common polypropylene or paper cones. The added strength allows more flexibility in design to achieve a smooth, extended low-frequency response.

Dolby Atmos Certified

This speaker is designed to sit on top of a traditional floorstanding or bookshelf speaker to add a height dimension to your home theater system without the need for in-ceiling speakers.*

Custom Concentric Driver

Designed by Andrew Jones, this concentric driver delivers an exceptional audio experience and offers a smoother, more extended response and better directivity control over conventional full-range drivers.

Intricate Crossover

A custom crossover with audio-grade components has been designed to ensure smooth transition between drivers.

A4.2 SPECIFICATIONS

SPEAKER TYPE	Sealed, 2-way concentric
FREQUENCY RESPONSE	180 to 20,000 Hz
NOMINAL IMPEDANCE	6 Ω
